

# Global Initiative for Veterinary Cancer Surveillance

*- Because cancer in animal really matters -*

**2<sup>nd</sup> Annual Meeting**

**7 – 8 October 2020**

The Second Annual Meeting will be held in webinar format 7<sup>th</sup> and 8<sup>th</sup> October 2020.

## Registration

### **Welcome to the 2nd Annual Meeting of the**

### **Global Initiative for Veterinary Cancer Surveillance, GIVCS**

We would like to welcome you all to the 2nd Annual Meeting of the Global Initiative for Veterinary Cancer Surveillance, GIVCS.

The GIVCS has been initiated as an idea of the late Johan de Vos, a visionary and passionate veterinary oncologist from the Netherlands, and other veterinary oncologists that got together during the 3rd World Veterinary Cancer Congress, WVCC, in Foz do Iguassu, Brazil, in 2016.

Since then, a group of veterinary oncologists, epidemiologists and pathologists decided to put Johan de Vos ideas into practice, and invited colleagues from many parts of the world to join.

The group is now formed by members from Brazil, Portugal, Australia, Italy, Switzerland, Canada, Kenya, Spain, United Kingdom, Romania, Germany, Mexico, Hungary and USA. Others may join voluntarily or upon invitation.

A [website](#) has been created to inform about the mission and objectives of the initiative, and the first Annual Meeting has been held in Sao Paulo, Brazil, on October 2019.

The GIVCS group has been working hard to create conditions to harmonize a coding system suitable for animal neoplasms and to consolidate GIVCS as a unique and global initiative to standardize and guide current and future Veterinary Registries in the collection of information on cancer in animals across the world.

Thanks for joining, and hope you stay tuned on GIVCS activities.

**Katia Pinello and Maria L.Z.Dagli**
