

Pathologist (m/f/d) - Laboratory Head Digital Pathology

YOUR TASKS AND RESPONSIBILITIES

- As Study Pathologist (m/f) for all types of early and regulatory studies, you will ensure highly scientific evaluation and interpretation of pathology data (macroscopical and histopathological) by concurrent adherence to all appropriate international regulatory guidelines and GLP principles
- You will be responsible for the digitization, digitalization and digital transformation in the field of toxicological pathology.
- You are responsible for the pathology part of toxicology studies in terms of technical quality, resource planning, project deadlines and follow-up of costs
- You will provide your expertise and interact with study directors and sponsors to support the development of a given compound
- As lab head you will lead a team supporting all activities connected to digital pathology
- You will ensure the scientific development of the individuals within your team
- You continuously strive for improvement of criteria for efficiency, quality and safety
- You are active in assuring safe working conditions in the laboratories

WHO YOU ARE

- Pathologist (m/f) with background in veterinary or human medicine
- Specialization in veterinary pathology or internationally accepted equivalent (e.g. FTA, Dipl.ECVP, DACVP)
- Experience in pathology (necropsy, histopathology)
- Experience with the technique and implementation of digital pathology (and image analysis).
- Good knowledge of toxicology, laboratory animal science and animal welfare
- Additional regulatory experience is welcome
- Strong leadership and communication capabilities
- Experienced with MS Office
- Fluent in English and German, both written and spoken
