

The **Department of Pathobiological Sciences at the Louisiana State University School of Veterinary Medicine** seeks applications a **Veterinary Anatomic Pathologist** for a clinical-track faculty position at the rank of Assistant or Associate Professor. The successful candidate will have a teaching role in the veterinary professional and PBS graduate curriculum, with emphasis in pathology (e.g., general pathology and systemic anatomic pathology) and a significant role in the Louisiana Animal Disease Diagnostic Laboratory (LADDL) diagnostic activity including necropsies and biopsies. Training of residents, contributing to scholarly activity, and leadership within the department are also expected. Collaborative research is encouraged. The anatomic pathology service is an integral part of the LADDL, which also hosts laboratories for diagnostics and research in virology, bacteriology, mycology, parasitology, serology, and molecular biology.

About the Department

The Department of Pathobiological Sciences (PBS) features well-funded research programs in virology, bacteriology, parasitology, epidemiology, and immunology. Additional programs exist with opportunities for collaboration within the School of Veterinary Medicine and with faculty from across other Louisiana institutions, including Pennington Biomedical and Tulane National Primate Research Center. University core facilities support advanced microscopy and imaging, laser microdissection, multispectral imaging, computed tomography, magnetic resonance imaging, flow cytometry-FACS, genomic sequencing and functional genomic technologies.

Assistant Professor of Veterinary Pathology (Clinical Track)

Minimum qualifications: DVM degree (or equivalent, e.g., VMD, DMV, BVSc) and diplomate status in anatomic pathology from the American College of Veterinary Pathologists (ACVP) or eligibility to take the ACVP board examination.

Preferred Qualifications: PhD degree, and a record of excellence in diagnostic pathology, didactic instruction, and scholarly activity in the form of publication of pathology findings, and research. Excellent written and interpersonal communication skills are essential for the position.

Associate Professor of Veterinary Pathology (Clinical Track)

Minimum qualifications: DVM (or equivalent, e.g., VMD, DMV, BVSc) and diplomate status in anatomic pathology from the American College of Veterinary Pathologists (ACVP)

Years of experience: minimum 6 years of postgraduate specialty experience and focused peer reviewed scholarly activity

Alternative certification: European College of Veterinary Pathologists (ECVP) board certification in Anatomic Pathology can substitute for ACVP board certification

Preferred Qualifications: PhD degree, and a record of excellence in diagnostic pathology, didactic instruction, and scholarly activity in the form of publication of pathology findings, and research. Excellent written and interpersonal communication skills are essential for the position.

Special or physical Qualifications (ALL LEVELS):

Indirect exposure to infectious agents

Must be eligible to work in the United States.

Job Competencies (ALL LEVELS):

Advanced in veterinary and comparative pathology

Advanced in excellent written and interpersonal communication skills

Additional Job Description:

Special Instructions: Review of applications will begin September 30, 2021 and will continue until a suitable candidate is identified. Applicants should submit a cover letter summarizing career goals, a curriculum vitae, transcripts from veterinary and all post-baccalaureate colleges/universities attended, current diagnostic, teaching and research activities, a statement of teaching philosophy, and names and contact information including e-mail addresses for three references. Original transcripts are required prior to hire. An offer of employment is contingent on a satisfactory pre-employment background check

Starting salary and appointment will be commensurate with professional and academic credentials and experience.
