

## **VETERINARY PATHOLOGIST POSITION**

**Columbus, OH US**

**Company: Battelle**

Battelle delivers when others can't. We conduct research and development, manage national laboratories, design and manufacture products and deliver critical services for our clients—whether they are a multi-national corporation, a small start-up or a government agency.

We recognize and appreciate the value and contributions of individuals with diverse backgrounds and experiences and welcome all qualified individuals to apply.

### **JOB SUMMARY**

Battelle, a preclinical contract research organization (CRO), is seeking an experienced Veterinary Anatomic Pathologist (Internal Anatomic Pathologist III) to join a team of board certified veterinary pathologists in Columbus (West Jefferson), OH.

The successful candidate will provide support to a variety of pre-clinical research studies involving both toxicological and infectious disease processes, including interpretation of gross and histopathology, providing contributing scientist reports, peer review, and presentation of study findings, as required. This role will also provide clinical pathology support to studies including data interpretation and presentation of results. The pathology department has a primary focus in the evaluation and reporting of anatomic pathology data generated from a variety of standard and non-standard laboratory species from non-clinical safety/efficacy short and long term studies.

### **THE FOLLOWING IS REQUIRED**

Doctorate of Veterinary Medicine (DVM)

ACVP Board Certification in anatomic pathology

Requires over 5 years of experience in toxicological pathology in a research environment.

Excellent knowledge in the principles of pathophysiology and disease and able to construct Contributing Scientist Reports.

Individual must be able to perform slide reading with a minimum of direction and is responsible for completing projects within time and budget constraints.

Collaboration with discovery and regulatory scientists/study directors. Benchmarking/implementing state of the art clinical pathology technologies.

Must be a US Citizen with the ability to obtain and maintain a government security clearance/DoD.

Must be willing to work in a biosafety level 2 (BSL2) and/or 3 (BSL3) environment and able to wear appropriate respiratory protection.

Must be willing to be immunized with licensed and FDA approved vaccines/medications recommended for persons at risk to occupational exposure of biological agents.

Must be willing to participate in periodic drug screening.

Will travel 1-2 times per year for participation in professional development events.

GLP Regulations knowledge.

## **ADDITIONAL REQUIREMENTS MAY BE REQUESTED AT A FUTURE DATE:**

Ability to obtain/maintain enrollment in applicable personnel reliability programs. Enrollment requires the ability to pass commercial and/or federal background investigations

Ability to obtain/maintain DoJ Security Risk Assessment (SRA) approval.

Ability to obtain/maintain CDC Select Agent Program approval.

## **THE FOLLOWING IS DESIRED**

Experience in Infectious Disease Research. PhD is also a plus.

Experience (clinical and/or anatomic pathology) with the National Toxicology Program (NTP).

Prior experience training technical staff – role will include training others in necropsy and histology.

## **LEGAL DISCLAIMER**

The above statements are intended to describe the nature and level of work being performed by people assigned to this job. They are not intended to be an exhaustive list of all responsibilities, activities and skills required of staff members. No statement herein is intended to imply any authorities to commit Battelle unless special written permission is granted by Battelle's Legal Department.

## **BENEFITS**

Battelle's competitive benefits program includes comprehensive medical and dental care, matching 401K, paid time off, flexible spending accounts, disability coverage, and other benefits that help provide financial protection for you and your family.

## **COVID-19 Vaccine**

In compliance with President Biden's Executive Order 14042 and the Safer Federal Workforce Task Force COVID-19 Workplace Safety: Guidance for Federal Contractors and Subcontractors, Battelle requires all employees to be fully vaccinated against COVID-19 as a condition of employment and continued employment and to provide documentation that they are fully vaccinated. Battelle will provide reasonable accommodations based on a qualified disability or medical condition through the Americans with Disabilities Act or the Rehabilitation Act or for a sincerely held religious belief under Title VII of the Civil Rights Act of 1964 (and related state laws). Battelle is an affirmative action and equal opportunity employer. If a reasonable accommodation is needed to participate in the job application or interview process, to perform essential job functions, and/or to receive other benefits and privileges of employment, please contact [recruiting@battelle.org](mailto:recruiting@battelle.org). Battelle is an equal opportunity employer. We provide employment and opportunities for advancement, compensation, training, and growth according to individual merit, without regard to race, color, religion, sex (including pregnancy), national origin, sexual orientation, gender identity or expression, marital status, age, genetic information, disability, veteran-status veteran or military status, or any other characteristic protected under applicable Federal, state, or local law. Our goal is for each staff member to have the opportunity to grow to the limits of their abilities and to achieve personal and organizational objectives. We will support positive programs for equal treatment of all staff and full utilization of all qualified employees at all levels within Battelle.
