

Anatomic Pathologist Position

The Department of Veterinary Pathobiology in the College of Veterinary Medicine at Oklahoma State University invites applications for a tenure-track position in anatomic pathology at the rank of Assistant or Associate Professor. The primary assignment will include diagnostic necropsy and biopsy service, teaching in the veterinary professional curriculum, and participation in our Pathology (AP and CP) training programs and Comparative Biomedical Science graduate program. Participation in College service committees is expected. The remaining assignment allows for numerous opportunities for collaborative research or other scholarly activities. Areas of College research emphasis are infectious diseases, microbial pathogenesis, immunity, parasitology, toxicology, and cancer therapy. Required qualifications for this position include DVM or equivalent degree and ACVP certification. A PhD degree is preferred, but not required. Salary is competitive and commensurate with experience.

While applications and nominations will be accepted until a successful candidate has been identified, interested parties are required to submit official application materials at <https://okstate.csod.com/ats/careersite/JobDetails.aspx?site=8&id=10822> by February 1, 2022 to receive optimal consideration.

Stillwater is a university town situated between Oklahoma City and Tulsa with an easy 1-hour commute to either city. There are ample opportunities for cultural, sporting, entertainment, and recreational activities. Stillwater has excellent public schools and is an exceptional place to live. The city has been recognized by numerous organizations for providing a high quality of life - (<http://stillwater.org/page/home/community>).
