

CLINICAL INSTRUCTOR IN ANATOMIC PATHOLOGY – UNIVERSITY OF WISCONSIN

The Department of Pathobiological Sciences, School of Veterinary Medicine, University of Wisconsin-Madison seeks applicants for a **1-year position in Anatomic Pathology with a negotiable start date in the late summer or early fall of 2022 and potential for position renewal for up to three years**. This full-time position is designed to prepare the individual for Phase II of the ACVP certifying board examination and/or serve as a transitional position promoting growth and independence in individuals interested in a career in academia, for those exploring career options, or for those pursuing graduate studies at our institution. The successful applicant will have access to a diverse diagnostic caseload from the Veterinary Medical Teaching Hospital, Milwaukee County and Henry Vilas Zoos, International Crane Foundation, Wisconsin Department of Natural Resources, and specialty clinics, as well as the opportunity to collaborate with Comparative Ocular Pathology Laboratory of Wisconsin (COPLOW) pathologists in examining ocular biopsy specimens, participate in the professional DVM and resident instructional programs in anatomic pathology, and engage in collaborative research projects based on candidate interest. **Time off for ACVP certifying examination study is provided.**

The School of Veterinary Medicine and Pathobiological Sciences Department offers the successful candidate the opportunity to join a dedicated team of 5 anatomic pathologists with diverse expertise and work in a collegial and supportive environment with exceptional resources in anatomic pathology, infectious disease pathobiology, oncology, food animal production medicine, and other disciplines. As a mid-sized city with a big-city energy, Madison offers diverse cultural and outdoor attractions locally and within a 2-hour drive.

Applicants must possess the DVM/VMD or equivalent degree, be US citizens or permanent residents, have had a **minimum of 3 years anatomic pathology training and be eligible for Wisconsin licensure**. Since residency training at the University of Wisconsin-Madison School of Veterinary Medicine involves the practice of veterinary medicine on privately owned animals, the successful applicant would be required to be licensed in the state of Wisconsin at the start of the position. Details regarding qualification-based compensation and full benefits can be found in the University of Wisconsin job website listed below.

Review of applications will begin immediately and deadline for receipt of applications for full consideration is **April 15th, 2022**. Application materials include a letter of intent and curriculum vitae to be submitted through: <https://jobs.hr.wisc.edu/en-us/job/512236/clinical-instructor>

Please direct your three references to submit their letters of support to Matthew Oestreich, ATT: Anatomic Pathology Clinical Instructor Candidate at pbs-admin@vetmed.wisc.edu. If you have
