

The University of Pennsylvania School of Veterinary Medicine, Department of Pathobiology, Penn Vet Diagnostic Laboratory welcomes applications for a full time, Anatomic Pathologist at the rank of Assistant or Associate Professor in the Academic Clinician track. The position involves an 80- 90% commitment to service activities in the Penn Vet Diagnostic Laboratory and a 10-20% commitment to teaching. Service responsibilities are shared among 4 other faculty pathologists who have expertise in surgical pathology along with neuropathology, oncologic pathology, and dermatopathology. Salary and rank will be commensurate with the candidate's training and experience. The search committee will begin considering applications immediately with a proposed start date as early as July 1, 2022.

The diagnostic laboratory supports Penn Vet's small animal veterinary hospital and practitioners from across the United States and territories. Our pathologists interpret approximately 12,000 biopsies and 400 autopsies annually. The majority of cases are submitted from specialty hospitals. Additional information on the department may be found at: <https://www.vet.upenn.edu/research/academic-departments/pathobiology>.

The University of Pennsylvania offers a comprehensive and competitive benefits package, which includes multiple options for retirement savings, and tuition benefits for the candidate's spouse or dependent children. This is an outstanding opportunity for an individual who enjoys working in a vibrant urban environment with an abundance of cultural resources, including music, art, theaters, and fine dining ([www.upenn.edu/life-at-penn/philadelphia](http://www.upenn.edu/life-at-penn/philadelphia)). Philadelphia offers easy access to New York and Washington DC. Additionally, Wissahickon Valley Park, Valley Forge National Park, and many more recreational amenities are within minutes of the city for the nature enthusiast.
