

Antech

Antech is excited to announce an open position for an Anatomic Pathologist! Come join our team and help us drive veterinary anatomic pathology forward while providing top-notch diagnostics. This position is full-time and 100% remote, primarily dedicated to reading surgical biopsies.

Antech is a division of Mars Veterinary Health, a privately held and family-owned corporation focused on making the world of better place for pets. Our ecosystem includes clinical divisions-- Banfield, BluePearl, and VCA—and is the largest corporate veterinary organization in North America. Antech's position within this unique, inclusive environment allows for singular opportunities to contribute to the future of veterinary pathology and animal health.

Antech's biopsy base is large and diverse, representing wide diversity of species from across North America, the Caribbean, and Asia. Our 100% digital platform allows you flexibility in your workday and easy collaboration with colleagues. Opportunities to train and specialize in canine and feline cancer, liver disease, dermatopathology, ocular pathology, oral pathology, exotics, and farm animals are available. Veterinary student teaching opportunities are also available through our partnership with Western University.

At Mars, we believe that the world we want tomorrow starts with how we do business today. If you feel the same way, apply at https://vca.wd1.myworkdayjobs.com/en-US/AntechCareers/job/Durham-NC/Anatomic-Pathologist_R-87351?mode=job&iis=Indeed.com&iisn=Indeed.com

Candidates are encouraged to apply before July 25th for full consideration.
