

FACULTY POSITION: Veterinary Anatomic Pathologist for a full-time tenure-track or clinical track faculty position at the rank of Assistant or Associate Professor.

The Department of Pathobiological Sciences (PBS) at the Louisiana State University School of Veterinary Medicine seeks a **Veterinary Anatomic Pathologist** for a full-time tenure-track or clinical track faculty position at the rank of Assistant or Associate Professor. The successful candidate on the tenure-track position will seek to develop significant research activities, while the clinical track candidates will be expected to participate in significant collaborative research activities with other PBS faculty. Both tenure-track and clinical track candidates are expected to teach in the veterinary professional and PBS graduate curriculum, with emphasis in pathology (e.g., general pathology and systemic anatomic pathology) and will participate in the Louisiana Animal Disease Diagnostic Laboratory (LADDL) diagnostic activities including necropsies and biopsies. Training of residents, contributing to scholarly activity, and leadership within the department are also expected. The anatomic pathology service is an integral part of the LADDL, which also hosts laboratories for diagnostics and research in virology, bacteriology, mycology, parasitology, serology, and molecular biology.

Closing Date: Open until filled
