

Assistant or Associate Professor in the field of Avian Pathology

University of Georgia

The University of Georgia, College of Veterinary Medicine, Department of Population Health invites applications for a tenure-track position at the rank of Assistant or Associate Professor in the field of Avian Pathology.

Tenure Track Assistant Professor

Qualifications: Candidates must have a DVM or equivalent degree from an AVMA recognized college/school of veterinary medicine. To be considered at the rank of Assistant Professor, candidates must have board certification or be eligible for board certification from the American College of Veterinary Pathologists or the American College of Poultry Veterinarians with the expectation of certification within 3 years.

Tenure Track Associate Professor

Qualifications: Candidates must have a DVM or equivalent degree from an AVMA recognized college/school of veterinary medicine. To be considered at the rank of Associate Professor, candidates must have board certification from the American College of Veterinary Pathologists or the American College of Poultry Veterinarians and at least 5 full years in rank at the Assistant Professor level before the start date.

Appointment, Promotion, & Tenure of Academic Rank Faculty can be found here:

https://provost.uga.edu/faculty-affairs/UGA_Guidelines_for_APT_approved_2_2020.pdf.

Discipline-specific criteria and procedures for promotion and tenure can be found at: https://provost.uga.edu/resources/documents/Population_Health2015.pdf.

Responsibilities include sharing diagnostic services in avian histopathology with another pathologist, collaborative research in poultry diseases, and instruction focusing on avian histopathology in graduate programs including the Masters of Avian Medicine degree and online Masters of Avian Health and Medicine degree programs. In addition, the faculty member is expected to work well as a team member and collaborate within the department providing support to clinical faculty and field veterinarians with the aim of solving problems in the poultry industry. A laboratory will be provided.

The Department of Population Health is a multi-disciplinary department composed of 4 units. The position is located at the Poultry Diagnostic and Research Center (PDRC) in Athens, Georgia. The PDRC is part of the diagnostic network for the poultry industry of Georgia. In addition, the PDRC actively provides support to the poultry industry throughout the United States and in many countries around the world. The environment is highly interactive and productive with close ties to all basic science departments, federal research facilities and other academic institutions nearby.

Rank, salary and terms of appointment will be dependent upon qualifications and experience of the applicant. Qualified applicants are invited apply at: <https://www.ugajobsearch.com/postings/413843>. All application materials must be received by May 1, 2025, to ensure full consideration; applications will be accepted until the position is filled.

Questions regarding this position may be directed to either Dr. Susan Williams (smwillia@uga.edu), Search Committee Chairperson or Dr. Roy Berghaus (berghaus@uga.edu), Population Health Department Head.

The University of Georgia is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ethnicity, age, genetic information, disability, gender identity, sexual orientation or protected veteran status. Persons needing accommodations or assistance with the accessibility of materials related to this search are encouraged to contact Central HR (hrweb@uga.edu).
